

Protest-Parade

Sat, March 1st 2025:

Keep
Görli
open!

Demo parade
around and
through
the park

At least €1.9 million for a fence + €750,000 a year for security guards while social projects are being cut? We say: populist nonsense!

Instead of an expensive fence around our Görli, we demand sustainable funding and investment in social projects in the neighborhood!

We are taking our demands to the streets on March 1 with a colorful protest parade since Berlin's CDU-SPD government wants to start construction already in March! But: The Görli is a social and public space for everyone – for hanging out, barbecuing, doing sports, stargazing and as a play area for children! We won't let that be taken away from us!

While the Berlin Senate has made massive cuts in social, cultural and environmental areas, they still want to build the fence. But building the fence won't solve a single problem in the neighborhood. A fence does not help against drug dealing, violence or homelessness. Despite numerous police measures, the nuisance for residents continues to increase. A fence around the Görli and the night-time closure are not a solution, but part of a structural problem.

When? Saturday, March 1st 2025 @2 pm
